

SEBASTIAN BOEL NIELSEN

Computer Science Student Seeking Internship | Fullstack Development

Brønshøj, Denmark | (+45) 20 91 25 21 | sebastianboel@gmail.com

Driven computer science student with strong technical and interpersonal skills. I'm looking for a 10-week internship from late August/early September 2026, as part of my computer science degree. I work with fullstack development in Java, JavaScript and Python, and have experience with databases, Docker, Git, CI/CD, and graph and vector databases. I also bring experience in sales, management and customer dialogue, giving me a strong understanding of collaboration, needs assessment and value-driven solutions.

Technical Skills

- **Programming:** Java, JavaScript, Python, HTML, CSS
- **Backend & Systems Development:** Object-oriented programming, API understanding, requirements analysis, UML, system design
- **Databases:** MySQL, database design, normalization, graph and vector databases
- **DevOps & Tools:** Docker, Git, GitHub, Linux CLI, CI/CD and deployment pipelines
- **Automation:** n8n, AI agents and workflow automation
- **Methods:** Agile development methods and teamwork in project settings

Education

Erhvervsakademi København (Copenhagen Business Academy) — Computer Science (Datamatiker)

August 2024 – present

- Currently in 4th semester
- Grade average: 9.6/12 (Danish 7-point scale)
- Focus on fullstack development with Java and JavaScript
- Electives in Python, AI agents and process automation with n8n

Professional Experience

Skousen Brønshøj — Sales Associate (part-time/full-time)

April 2023 – present

- Advise customers on technical products and needs through clear communication and targeted needs assessment

- Handle customer inquiries and complaints with a focus on effective problem-solving
